BEAM
SUMMIT

August 4th - 6th, 2021
2021.beamsummit.org

What is the Beam Digital Summit 2021?

The Beam Digital Summit is an opportunity to bring together members of the Apache Beam community to discuss the vision and mission of the project, as well as to open a collaboration space to share Beam use cases.

Beam Summit will be hosted again as a digital event, which will consist of a multi-day program distributed in 3 days, dedicated to technical talks and workshops.

The event aims to bring together members of the Apache Beam community to discuss and build the future of the project, to inspire people to use the technology and onboard people to the project, and also to educate both beginning users and more advanced users on the Apache Beam technology.
